

Heaven's Reach Ministries

"Reaching Arkansas and the World for Christ"

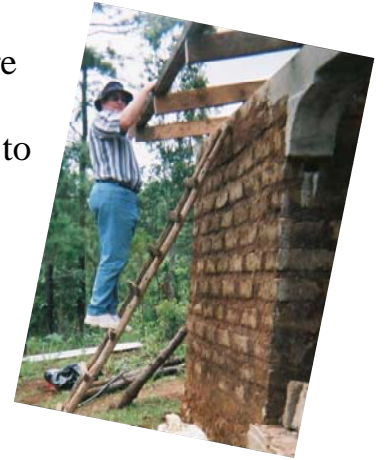

August 2006

Newsletter

Because Melissa and I consider you friends, we wanted to give you a report of our recent missionary trip to Honduras. Our time spent there was an in-depth learning experience, as we worked with Mercy International to be trained in leading mission trips. We were blessed to

be guided in this endeavor by Henry Lowman, my brother, who has been a missionary in Honduras for 17 years. Over a three-week period, we trained with, and helped oversee, two teams from the United States. It was an incredible learning experience.

During the first week, we assisted a group as they roofed a pastor's home, poured a cement floor for another poor family, and conducted a Vacation Bible School at an elementary school in the village nearby.

The second team also poured a cement floor. This is a project that has been very successful, as most of the people live in huts with dirt floors, causing much unnecessary sickness. This team also conducted purity classes in the schools, teaching the young people what the Bible says about sex. Many of the young girls become pregnant at an extremely early age, and have had no

education in this area. The other project for this team was conducting healthy living classes called "Cleaning Brigade," in which the team went into three homes to teach one-on-one, the need, and the technique, for keeping a home clean. They were also taught personal hygiene.

Melissa, Haley, our daughter, and I, would ask you to pray with us for direction, as we are feeling as a family to prepare for a move in the direction of foreign missions. We realize God is moving on the earth and it is our desire to be where He wants us in this last, great revival.

May God prosper your house,

Dean & Melissa Lowman
